

Repetition

Last updated 10/29/20

Repetition

- These slides introduce the concept of repetition
- Upon completion: You should be able to interpret and develop solutions with repetition

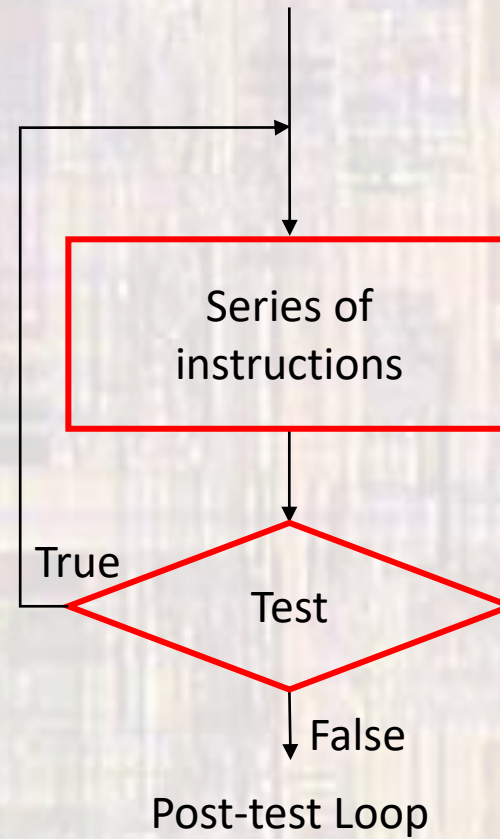

Repetition

- Repeat a series of instructions - loop
 - How many times
 - Under what conditions
- Test to determine if we are done

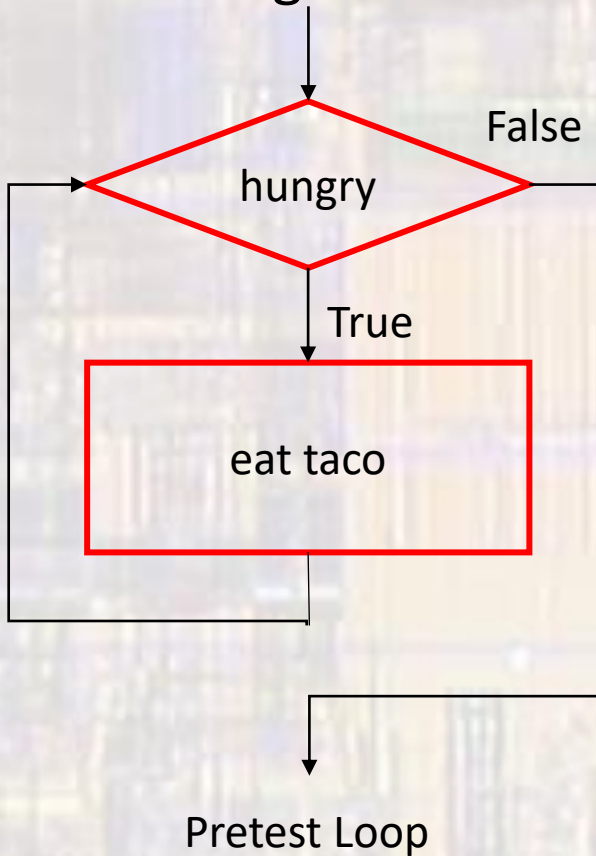

Repetition

- Loop Testing

Repetition

- Loop Testing
 - Eating tacos

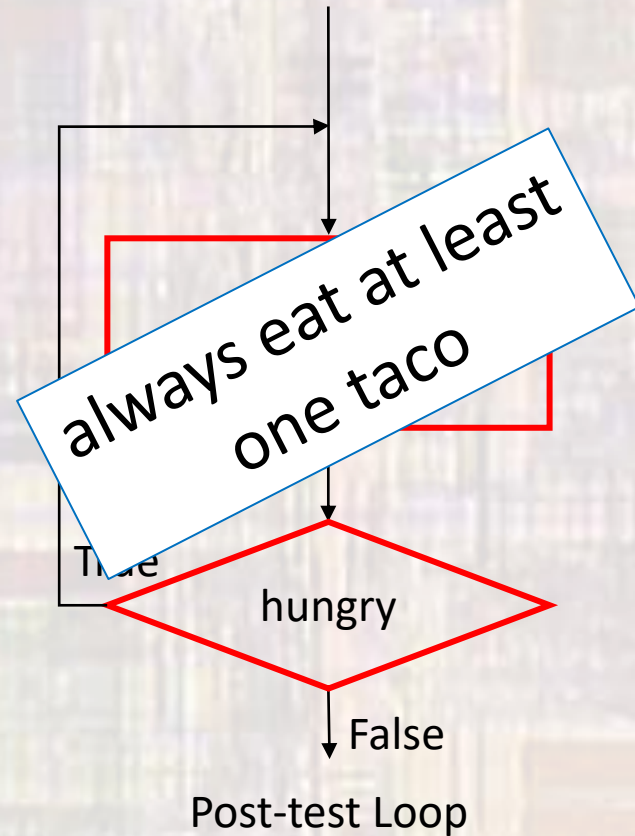

Repetition

- Loop Testing
 - Eating tacos

only eat if hungry

always eat at least one taco

Repetition

- Loop Testing
 - Eating tacos

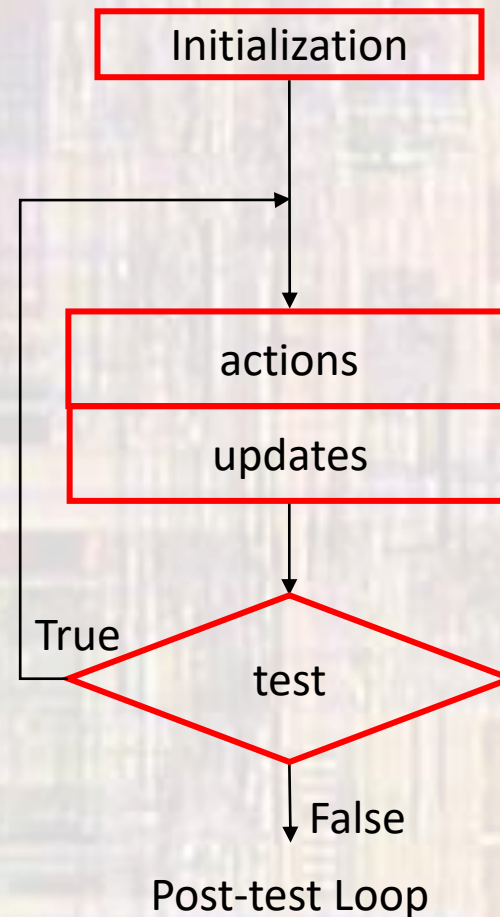

Repetition

- Loop Initialization
 - Initialize any required loop parameters (variables)

Repetition

- Loop Update
 - Update any required loop parameters (variables)

Repetition

- Loop Comparison

	Pretest	Post-test
Initialization	1	1
# of tests	$n+1$	n
Actions executed	n	n
Updates executed	n	n
Min iterations	0	1

Repetition

- Loops in C
 - while
 - pretest loop
 - for
 - pretest loop
 - do ... while
 - post-test loop
