EE 1910

Dr. Johnson

Test 2

No calculator No notes

1 – Provide the value after executing the following code snippits(if/else).	10pts
2 – Given the following program. What will be printed	10pts
3 - Fill in the memory map at the end of the following code	10pts
4 – Provide the final values after executing the following program	10pts
5 – Provide the value after executing the following code snippits(for)	10pts
6 - Provide the value after executing the following code snippits(while)	10pts
7 – Provide the value after executing the following code snippits(switch)	10pts
8 – Write a function,	15pts
9 – Debug question	5 pts
10 – Pointer question	5 pts
11 – Terminology / concepts	5 pts

C – Operator Precedence

recedence	Operator	Description	Associativity					
	++	Suffix/postfix increment and decrement	Left-to-right					
	0	Function call						
	0	Array subscripting						
1	-	Structure and union member access						
	->	Structure and union member access through pointer						
	(type){list}	Compound literal(C99)						
	++	Prefix increment and decrement	Right-to-left					
	+-	Unary plus and minus						
	!~	Logical NOT and bitwise NOT						
2	(type)	Type cast						
	*	Indirection (dereference)						
	&	Address-of						
	sizeof	Size-of Size-of						
	_Alignof	Alignment requirement(C11)						
3	* / %	Compound literal(C99) Prefix increment and decrement Unary plus and minus Logical NOT and bitwise NOT Type cast Indirection (dereference) Address-of Size-of Alignment requirement(C11) Multiplication, division, and ambinuer Addition and subtraction Bitwise left shift and right salift	Left-to-right					
4	+-	Addition and subtraction						
5	<<>>>	Bitwise left shift and right's lift						
6	< <=	For relational to tratters < and ≤ respectively						
	>>=	For relation I operators > and ≥ respectively						
7	== !=	For elational = and ≠ respectively						
8	&	Bitwise AND						
9	٨	Bitwise XOR (exclusive or)						
10	I	Bitwise OR (inclusive or)						
11	&&	Logical AND						
12	H	Logical OR						
13	?:	Ternary conditional	Right-to-Left					
	=	Simple assignment						
14	+= -=	Assignment by sum and difference						
	*= /= %=	Assignment by product, quotient, and remainder						
	<<=>>=	Assignment by bitwise left shift and right shift						
	&= ^= =	Assignment by bitwise AND, XOR, and OR						
15		Comma	Left-to-right
