# Program 2 

## Printing Practice

Name:
Time spent: $\min$

Write a program to match the output below. Remember to document your code with appropriate comments. Where it says "using tabs" - use tabs

```
<terminated> (exit value: 0) Programming_Project.exe [C/C++ Application] Z:\msoe_current\ELE1601\eclipse_\
/////////////////////////////////////
Program HW #2
Your Name Here
Practice printing
\1111111111111111111111111111111111111111 Backward slashes
using tabs: 1 2 
My program will now wait for 3 seconds, and then continue 
Th-Th-The, Th-Th-The, Th-Th-The - Thats all folks!!!
```
