CS2911: Week 7 Lab Grading Checklist

Dr. Yoder Names: _____

Item	Points
Introduction: Describe the lab in your own words (You may use the space below)	/ 1
Design by dividing task into clear modular sub-tasks	/ 1
Document author and interface of each method, dividing work reasonably	/ 1
Design and refactor to use <code>recv()</code> properly and keep methods short: (Your top-level methods can be longer, but avoid nested if statements.)	/ 2
Code checks the responses from the server to ensure they are what is expected and reports error if a problem occurs.	/ 2
Code successfully establishes TLS connection, reading the 220 response to the EHLO through the connection	/ 2
Code closes connection cleanly	/ 2
Send complete header in email including to, from, subject, and date	/ 1
Demonstrate your program to the instructor during the lab period <ul style="list-style-type: none"> • Code review • Run program • Demonstrate email received 	/ 4
Excellent credit: Incorporate and demonstrate a feature of SMTP or the Internet Message Format beyond the requirements	/ 1
Summarize what you learned during this lab (You may use the space below)	/ 1
Things you liked about the lab or suggestions for improvement	/ 1
Follow submission instructions below	/ 1
Total	/ 20

- **Staple** this lab cover sheet on top of all the materials you are submitting.
- Submit your work in the **order** listed above.
- In addition to the materials above, submit any other supporting materials you create while working the lab where they fit best in your report.
- Your demo is due during the lab period. For labs on Wednesday, your lab packet is due by 9 AM on the day after the lab is performed, and, for the lab on Friday, by the end of the day. There is a 2 point per day late penalty on the report+ demo. Slip your submitted lab packet under my office door or submit your packet to me during the laboratory.
