SE3910: Week 6 Lab Grading Checklist

Dr. Yoder Names:

Due **at the start of** lab, Week 7. Encouraged to turn in before leaving for break.

Item	Points
Prelab: Demo of Qt Creator running in VM	/ 2
Commented and self-documenting source .h and .cpp files. Place each .h file immediately before the corresponding .cpp file. Place the file with your main method first, and the other files in alphabetical order. You do not need to print files that you did not edit.	/ 10
Demo of clock (in lab) or photo/screenshot of Qt creator running on BeagleBone.	/ 5
Introduction: Describe the lab in your own words	/ 1
Conclusions: Write what have you learned with this experience	/ 1
Comments on the lab, either positive or suggestions for improvement.	/ 1
Total	/ 20

- **Staple** this lab cover sheet on top of all the materials you are submitting.
- Submit your work in the **order** listed above.
- Submit any additional supporting materials you created while working the lab where they fit best in your report.
